Protocol for Clearing and Salting Pathways When Necessary

In the event of snow and ice efforts will be made to clear and salt some pathways. This is dependent on the severity of conditions, the availability of salt in prolonged periods of bad weather and the availability and attendance of staff. Parents, children and visitors need to be aware that pathways, even where cleared, do remain dangerous. Children will also be reminded of this in assembly. Before and after school opening hours parents are responsible for ensuring their children do not slide on the school playground. In icy conditions efforts will be made to clear and salt the following as staffing and resources allow:

- A) Coltman Avenue pedestrian access to KS1 yard doorway
- B) Coltman Avenue pedestrian access to KS2 yard doorway
- C) Coltman Avenue pedestrian access to school office doorway
- D) Burden Road pedestrian access to school office doorway
- E) School office doorway to the Key Stage 2 yard doorway**

When possible, essential pathways will be maintained during the day. During adverse weather conditions, the playground may be out of bounds at the beginning and end of school. The Head Teacher **may decide that this is** necessary at break times as well. In the Head Teacher's absence, the senior teacher on site will assume responsibility.
